

## Travel and Arrival Protocol – February 2022 Students in Private Homestay and Custodianship

The current COVID-19 pandemic as well as travel restrictions and quarantine requirements have resulted in pre-departure, travel and arrival protocols for international students (new and returning) and all travellers destined for Canada.

These procedures are intended to -

- Alleviate any fear and concerns of students, families, schools and communities
- Support the safe travel/transit, health/well-being of international students
- Ensure students and host families manage this period safely and smoothly

Our first priority remains the health and safety of our students, families and school communities. It is important to note that Canadian educational institutions must follow the regulations and recommendations of various authorities, including the government of Canada, provincial and local public health authorities. Although we had been experiencing some relaxation of restrictions, the recent surge of the Omicron variant has increased restrictions again.

Whenever possible, the Vancouver airport should be the first port of entry into Canada for students. If a transfer in Canada is necessary, please ensure there is AT LEAST 4 hours to complete the transfer. If you miss your transfer, contact your agent and your custodian immediately.

**The vast majority of our students are arriving fully vaccinated. If you are not vaccinated or only partially vaccinated, please pay attention to the information in the [BLUE](#) boxes. Please note that you cannot board a plane to return home if unvaccinated if over the age of 12.**

Students that have received two doses of

- AstraZeneca/COVISHIELD
- Bharat Biotech (Covaxin)

- Moderna
- Pfizer-BioNTech/Comirnaty/Tozinameran
- Sinopharm BIBP
- Sinovac/CoronaVac/PiCoVacc
- or a single dose of the Johnson & Johnson (Janssen) vaccine

will be exempt from 14 day quarantine provided other conditions are met.

Full vaccination must be complete at least 14 days prior to entering Canada and can be from a combination of accepted vaccines (e.g. first dose Pfizer, second dose Moderna).

Currently, other vaccines are not acceptable. Partially vaccinated students must quarantine for 14 days, including those who had COVID and only have received one dose of the vaccine.

Please also go to the official website that explains the process for vaccinated travelers to enter Canada. It is important to be familiar not just with the information in this package but current official instructions at the time of your travel.

### [Current Travel Information from the Government of Canada](#)

Please note that in not following these protocols, students may be denied entry into the country, or may be dismissed from the program with no refund. Government authorities may also fine students for non-compliance in certain situations.

**For Action – Please make sure you fill out the form at the back of the package and return it to [croesler@GoDelta.ca](mailto:croesler@GoDelta.ca) IMMEDIATELY.**

**Students should download What's App to their phones and other devices either before arriving or immediately upon arrival and check emails frequently for orientation and other activities. Secondary students will receive instructions on how to log into a Delta Learns account and a Google Classroom each day for information. Students in Private Homestay and Custodianship must also participate in the activities.**

## Pre-Departure

### Communication and Relationship Building Between Homestay and Natural Families

- Have several Zoom or Skype meetings to get to know one another
- Share how you have been living during the COVID-19 experience and the precautions being taken, as well as your hopes moving forward
- Exchange emails and cell phone numbers and program into phones
- Confirm arrival and airport pick-up plans
- Build relationships and trust between the families

- Please download **What's App** before you arrive and ask your host family to do the same

### **Consider Pre-Purchasing a Canadian cell phone plan and SIM card**

- In a typical year, homestays take students to get a Canadian cell phone plan when they arrive (mandatory for safety and communication reasons)
- This will not be possible this year until students have completed their short or 14 day quarantine. One option is to get a Canadian cell number and plan before you come to Canada. A SIM card can be delivered to your home!
- <https://try.gophonebox.com/newarrivals/>

### **Keeping Health Risks Low**

- In the weeks leading up to your departure, keep your social circles minimal, wear a mask, do not go to any large parties or events, etc. We want you to be COVID free when you travel, and be able to travel as planned and scheduled.

### **Medical Check / Testing**

- All people over the age of 5 entering Canada by air must have a **PCR test within 72 hours of departure**. This is not 72 hours prior to when you leave your closest airport, but 72 hours before your final flight departs for Canada. For example, if you are flying from Rome to Amsterdam to Vancouver, the test must be completed 72 hours prior to your departure from Amsterdam, not Rome.
- For those who have recently recovered from COVID, they may present a POSITIVE test result from at earliest 10 days before travel and at latest 180 days before travel. This positive result must be from an official lab and must also be from a PCR test. The date of the test result must be clearly indicated on the results and they must be in English or a certified translation.
- Those who test positive for COVID-19 and cannot travel as scheduled should their custodian immediately to discuss other departure options and inform our program.
- Please bring a copy of your test to the airport and be prepared to present it to border services in Canada as well. Your test results can be in paper or electronic form and must include
  - Your name and date of birth
  - The name and address of the clinic/facility/lab that performed the test
  - The date and time the test was conducted
  - The type of test
  - The test result

**Unless you have recently had COVID and have the proper documentation to show this, all students, whether vaccinated or not, must have a negative PCR test to travel to Canada.**

### **Completing Arrival Plans**

- Download and complete the ArriveCAN App (available for iPhone and Android).
  - You must fill in this APP before departing. However, do not download and complete the app more than 72 hours before departure. You require your negative PCR test to complete the app.
  - You will need to do a **daily check-in** on the app after you arrive if you are in quarantine
  - Failure to do this may result in a visit from local police, a visit from local health authorities and/or a fine
- Please also make sure you have handy your Homestay address and contact information
- Instructions for filling in the ArriveCAN App can be found [HERE](#).

To be considered for a quarantine exemption from the 14 day quarantine, your proof of vaccination and potential quarantine information must be uploaded to the ArriveCAN app. In the app you must provide the following information –

- The details of your first dose (date, country and vaccine name)
- The details of your second dose (unless you had the Johnson & Johnson vaccine)
- A photo or pdf of the record of your vaccinations. This MUST be in English or French OR must be a certified translation into English or French. Records or receipts in your home language will not be accepted.

Failure to correctly fill in the app or upload documents according to the instructions MAY mean that you will have to quarantine.

If you have had a third dose, please also bring that information with you.

### **Pre-Register for your Arrival COVID Test (REALLY IMPORTANT)**

- Expect that you will be asked to have a COVID test upon arrival (unless you have recently recovered from COVID and have the proper documentation to prove this)
- [Pre-register for your Arrival test HERE](#)
- Your arrival COVID test will be issued at your first entry point in Canada, so book appropriately
- Please use the same email address as on your ArriveCAN app
- Everyone over the age of 5 will be tested

### **Set up your @deltalearns email account and sign into the Google Classroom**

- You will need to access the Google Classroom shortly after your arrival
- We will also be posting important information regarding orientations and school start up there

## **Download the BC K to 12 Health Check App**

- You will need to do this health check everyday before attending school

## **Packing**

**All secondary school students need to have a cell phone and a laptop when coming to Canada for the 2021-2022 school year.**

In addition to regular packing requirements as in the Student Handbook please also bring –

- 60 disposable face masks OR 30 disposable and 1 cloth face mask
- One large bottle of quality hand sanitizer
- Box of Nitrile gloves
- Thermometer

Please give at least 15 disposable masks and the box of gloves to your homestay upon arrival in your host family house.

**It is important that masks are of good quality and fit properly. If you have some N95 masks are the best, followed by medical grade masks and then multi-layer cloth masks should they fit properly. Consider double-masking if you do not have N95 masks.**

### [Tips for Making Sure Masks Fit Properly](#)

Students should also, in their carry-on luggage, have at least 2 masks, a travel sized bottle of hand-sanitizer (100 milliliters or less) and some disinfecting wipes.

Please also make sure you have the following documents packed in your carry-on luggage in clear folders. Students should make sure they have both paper copies of all documents AND digital back-ups.

- Passport
- Letter of Acceptance
- Custodianship documents
- Study permit or permit confirmation document (Letter of Invitation) if you have one (if you don't have a study permit make sure you have an ETA and any other necessary visas arranged)
- Pick-Up and Contact information for your host family
- PCR test results/Positive COVID test results
- Records of all COVID vaccinations
- Copy of this document, signed by yourself, your parents and your custodian

**These documents (including this document) constitute the required proof of quarantine plan that all people entering Canada must provide.**

Please also bring a change of clothes and travel appropriate snacks.

If you have recently received a new passport or study permit, please bring both the old AND new documents with you.

## **Airport and Flight**

### **Wear a Mask**

- Wear a good quality, well-fitted mask (or double mask) in the airport at all times whether fully vaccinated or not.

### **Wash hands frequently and avoid touching your face**

### **Practice Physical Distancing**

- Be aware of your surroundings
- Avoid busy areas of the airport
- Avoid unnecessary movement within the airport – go to your gate and stay in one place
- If they are open, avoid restaurants and food kiosks

### **Use hand sanitizer when necessary**

- If you are unable to wash your hands regularly at the airport or during your flight, please use hand-sanitizer, especially if you touch anything on the plane and before you eat.

### **Sanitize your personal space and high touch areas**

- Before sitting down on the airplane, wipe down your seat area, including armrests, seatbelt buckle, eating tray, touch screens and remote controls, etc. with a good quality disinfecting wipe.

### **Minimize trips to the washroom**

- Of course, use the washroom as needed, but avoid moving around the plane if not necessary. When using the washroom make sure to flush the toilet with the seat down and wash your hands thoroughly afterwards. Avoid opening the door with your bare hand after washing your hands.

**Touch as few surfaces as possible**

- Keep your hands to yourself.
- Avoid touching surfaces unnecessarily in the airport. When that is unavoidable (checking in, going through security, etc.) wash your hands thoroughly immediately after.

**Keep your cell phone charged**

- You will need your cell phone to contact your homestay family or the person who is picking you up when you arrive. Please make sure that it is charged throughout the flight.
- If you are using your phone throughout the flight to watch movies or play games, please wipe it down with a disinfecting wipe frequently.

**Bring some food with you as the restaurants or stores may not be open and flights may not be serving food.**

- Make sure it is food that you will be allowed to take on the flight. Check with your airline.

**Bring a refillable water bottle with you.**

**If you need help at the Airport go to the Information desk or look for volunteers who can help you.**

**Arrival at Vancouver Airport**

Upon arrival in Canada the student should proceed through the airport while maintaining physical distancing (2m away from other people) and wearing a mask.

The student must have the documents outlined under 'Packing' ready to provide to Canada Border Services. Border Services prefers these documents in paper form. Do have a digital back up, however, just in case.

Students will also be required to undergo a screening by a border services or quarantine officer to assess travellers for symptoms.

**Wear a fresh mask**

- You should be wearing a mask throughout your flight
- When you arrive, please dispose of that mask, thoroughly wash your hands and put on a new mask. Consider double-masking
- Avoid touching surfaces in the airport, and when you do, immediately wash your hands
- You will keep your mask on until you arrive in your homestay or place where you will be living

### **Text your host family/person who is picking you up**

- Once you have left the plane, immediately text your homestay to let them know you have arrived and that you are off the plane
- Text/What's App them again when you have picked up your luggage

### **Be prepared to speak about your quarantine plan as you will be assessed**

- Have print outs or screenshots of your plans and documents
- Have any confirmation numbers
- Know the name and address of your host family (bring your homestay profile)
- Bring any documents provided to you by the school district (including this document)
- Know the name of the person who is picking you up and how you are getting to your homestay
- Be able to show the ArriveCAN App confirmation code on your phone (with your name visible on it)

Canada Border Services will review the documentation of a fully vaccinated student (including what has been entered on the ArriveCAN app) and determine whether the documentation meets the necessary requirements to be exempt from 14 day quarantine.

The Canada Border Services agent will make the final determination.

Students must be aware that even if fully vaccinated, the determination may be made that they have to complete a 14 day quarantine anyways. Therefore, please be comfortable with ALL of the information in this handout. All travellers need to bring all documentation to prove they have a plan for 14 day quarantine if needed.

### **Proceed through immigration and baggage pick up while maintaining physical distancing**

- Don't rush. Take your time and keep plenty of space between you and others.
- If you are a new student who has a study permit approval letter, **PLEASE MAKE SURE YOU GET YOUR LUGGAGE AND THEN PICK UP YOUR STUDY PERMIT (if you have applied for one) BEFORE EXITING TO THE ARRIVALS HALL.** If you are unsure what to do, ask at the information desk.
- Message your host family when you have your luggage and again when you have picked up your Study Permit

### **Take your COVID test**

- You will be asked to do a COVID test at the airport. You will be contacted approximately 3 days after the test with the results. Please remember to book this in advance. **While waiting for the result you will have to quarantine in your homestay.**

- For those transferring planes within Canada, the test will be issued at your first point of arrival in Canada. However, you can continue to Vancouver and then quarantine while waiting for results.
- In some cases, you may be given an at home test instead. If you receive one of these, complete it as soon as you arrive in your homestay and send it to the lab using the instructions provided in the kit. Do this immediately. If you have questions about completing this test, contact the test provider.

If you are not fully vaccinated you will also be given a take home test to do on Day 8 of your 14 day quarantine. Please give this kit to your host family when you arrive.

If you are not fully vaccinated please do not leave the airport without your Day 8 test.

The processing order is ...

- 1) Canada Border Services
- 2) Luggage Pick Up
- 3) Study Permit Pick Up (for new students only who have applied for a study permit)
- 4) COVID test

#### **Pick Up Options**

- General public is now allowed back into the airport. **However, the pick up area has moved and could be quite confusing for students (international arrival area).**
- Please discuss with your homestay whether they will wait for you in the arrival area inside the airport OR if they will wait for you outside as per the pictures below. Some people are more comfortable in crowded areas than others.

If you are arriving from INSIDE Canada (**Domestic flight**) your homestay will meet you in the arrival area OR here just outside the exit doors. Please note you have to go down one floor inside the airport before exiting.

The 'meet and greet' area has moved upstairs to the third floor by the Jade statue. This could be difficult to find. Please talk with your homestay/custodian regarding whether they will meet you there or outside under the sky bridge. please meet them directly outside.

**Load your own luggage into the car and sit as far away from the driver as possible**

- Although your host family will be excited to greet you, if you are not fully vaccinated, only one household member will pick you up and they will be wearing a mask. Please keep your distance.
- They will not be able to hug you or shake your hand. Do not take offense!

Students must wear a mask in the car and even in areas of the home until they are finished their quarantine while waiting for their arrival test if fully vaccinated or during their 14 day quarantine in not fully vaccinated or asked to quarantine by border services.

## Quarantine/Self-Isolation

Students who are fully vaccinated will need to quarantine until they receive their arrival test results (provided they are negative). This should take 2 to 3 days. **If the results are subsequently positive, students will need to quarantine for a further 10 days.** If this is the case, or the test results are inconclusive, please contact [ksymonds@GoDelta.ca](mailto:ksymonds@GoDelta.ca) immediately.

As part of the Quarantine Act, travellers who are not fully vaccinated are required to quarantine for 14 days. This means that you have to stay in your own room for 14 days and avoid contact with others. Remember, Canada Border Services will determine whether you are fully vaccinated or not.

Fully vaccinated students given clearance from Canada Border Services do not have to quarantine for 14 days but do have to self-isolate until they receive their negative test results. They do not have to complete a Day 8 COVID test.

**Either way, written instructions SHOULD be provided at the airport. Please give a copy of the instruction sheet you receive to your host family.**

Fully vaccinated travellers must wear a mask in all public spaces (both indoor and outdoor) for their first 14 days in Canada and must keep written record of everywhere they go and any people with whom they have close contact. [More information on this can be found here.](#)

For those having to quarantine for 14 days, Government of Canada officials will call you and/or your host family to monitor compliance with quarantine. They may come from an unknown caller or a call with no caller ID. **Please note that there are some COVID-19 scams out there. If someone phones claiming to be checking in with you regarding COVID-19 do not provide any financial information.** If you are not sure if a call is legitimate, please let your homestay know of your concerns.

These instructions and protocols may seem overwhelming, whether having to follow them for 3 days or 14 days. Please ask your homestay or custodian for support.

Your homestay will provide you with food, clean linens every couple of days, a comfortable room and access to them via text, FaceTime, What's App and other remote communication. While in quarantine, you do need to complete a check-in form every day before noon and let us know when you receive your arrival test results. You cannot attend school until you have your negative test results in writing ... and you cannot attend class until you have attended an orientation.

If you are in 14 day quarantine, someone from our staff will check in with you via a zoom or phone call every day. You must also continue to fill out a daily check in form daily. Links and information will be posted on the Google Classroom.

As you may not have had a chance to get a Canadian cell plan yet, please make sure you are connected to Wi-Fi in your house and able to communicate with us and your homestay through an app like FaceTime, WeChat or What's App.

Students who are under the age of 12 and four months and are not vaccinated do have to do 14 day quarantine if arriving without an accompanying vaccinated parent or adult.

However, if they travel with their vaccinated parents and are staying with them for the first 14 days, they only have to isolate while the parent is awaiting the negative arrival test result. They must NOT

- Attend school, daycare, day camp or other situations where they come in contact with other children
- Be in crowded areas
- Take public transit
- Be in contact with the elderly or other vulnerable populations

They can accompany parents to essential services, go outdoors in open settings and gather with small groups of family who are vaccinated. For the 14 days after arrival, the student must wear a well-fitting mask in all settings outside of the house and parents must keep a list of all places they go and all contacts that the student has had.

For more information on the arrival of vaccinated and unvaccinated children under 12, please see the link below.

[Children Under Age 12](#)

## Student Responsibilities and Expectations During Quarantine (short or 14 day)

### Stay in your own room as much as possible and away from others.

- The purpose of quarantine is to ensure that, in the unlikely case you have been in contact with COVID-19 in your travels or pre-departure, your host family and the greater community is not put in contact with it as well.
- Therefore, it is VITAL that you stay in your room. You may, of course, exit your room to use the washroom facilities.

### Keep your room well-ventilated and clean

- open your window to let the air circulate.
- It is important to get fresh air and to make sure your room stays clean and fresh.
- Make sure that you have a window open so air can circulate adequately. If you find your room too hot, please let your homestay family know so they can provide you with a fan.

### Practice good hygiene

- Wash your hands frequently with plain soap and water for at least 20 seconds.
- Use paper towels to dry your hands and dispose of them in the garbage can in the bathroom. When you shower, take your towel back to your room with you.
- Cover your mouth and nose with your elbow when coughing or sneezing, or use a tissue. Avoid coughing into either your hands or into the air. Dispose of used tissues right away into a trash bin and immediately wash your hands.
- Shower once per day and brush your teeth twice a day.

### Use a separate bathroom whenever possible

- Your homestay will provide you with cleaning supplies and some instructions on cleaning your washroom. You are to clean your washroom thoroughly once per day.
- Please put all toilet paper in the toilet and flush the toilet with the lid down.
- If you are sharing a washroom, make sure you remove all of your belongings after each use (towels, toothbrush, brush, etc.) and clean the bathroom thoroughly after each use.

### Complete the ArriveCAN App check in daily.

**If you arrive and are not deemed fully vaccinated, on Day 8, complete the Day 8 COVID test with the help of your host family and have it couriered as per the instructions that come with the test. Do not attempt to do this test without consulting with your host family.**

**Complete the District Check-In Daily and participate in any zoom calls and video check ins. Check your email! All students will have an online orientation/registration at 3:30 Monday February 7<sup>th</sup> whether they are in quarantine or not.**

### **Stay connected**

- Text, and use FaceTime or other apps to stay in frequent contact with your homestay
- Ensure your cell phone is charged and you are connected to Wi-Fi (homestay will leave Wi-Fi password in your room)
- Regularly check your emails
- If someone emails or contacts you, please respond immediately
- Make sure you are participating in online communication with our staff as instructed

### **Monitor your physical and mental well-being**

- Complete the online daily health-check for the district and also on your Arrive CAN app. Please fill it out completely and honestly
- Contact your homestay/custodian immediately if you are not feeling well, you notice a change to your 'baseline' health or if you are feeling sad and lonely
- Reach out to our staff any time you want to talk
- Try to establish a 'routine' as quickly as possible. For example, do not stay up all night and sleep all day.

### **Package up your garbage daily**

- Your homestay will provide plastic garbage bags for you. Each day, ensure all of your garbage is placed in the bag. Once a day, put on a pair of gloves, securely tie the bag and place it outside of your room for your homestay to dispose of it.

### **Take care with laundry**

- Immediately upon arrival in your house, remove your travel clothes and place them in a plastic bag. Put on gloves and securely tie the bag and place it outside of your room.
- Your family will provide you with a laundry hamper lined with a plastic bag. Every three days place your sheets and towels and other laundry in the plastic bag. Wearing gloves, tie up the plastic bag and leave it outside your room. Your family will bring you clean sheets and towels and your clean clothes to fold once washed. Please do not wear anything delicate as your clothes need to be washed thoroughly in hot water.

### **Be creative**

- Find unique ways to communicate with and interact with your host family ... watch movies together virtually, eat dinner together virtually, play games online.

### **Food**

- Your host family will prepare food for you and leave it at your door. They will contact you when your food is there. Please do not keep any food garbage in your room.
- They will drop off breakfast in the morning and dinner in the evening. If your host family works, they may drop off a bagged lunch for you to eat as well. There will be snacks

and water in your room for you to consume when needed.

- When finished eating, place your dishes, etc. and any uneaten food outside your door and let your host family know it is there.
- Do not share dishes, drinking glasses, cups or utensils with anyone else in the family

#### **Ask for help!**

- These instructions and protocols might seem overwhelming but they are in place to remind you to be careful with your contact with others during the 14-day quarantine or 2-3 self-isolation
- This is for your personal health and safety and that of our schools, families and community
- If you need to talk or need any help please reach out to any of our staff

**Please remember that Quarantine is a requirement of the Quarantine Act and not optional for those who are not fully vaccinated or have been told to quarantine by Canada Border Services.**

### **Post Quarantine Expectations for Student & Families**

#### **Continue to practice proper hygiene**

- Wash hands frequently
- Keep your washroom clean
- When soap and water is not available, use hand-sanitizer
- Let your family know if you don't feel well. If you are ill do not attend school or be in social contact with others.

#### **Use proper coughing and sneezing etiquette**

- Cough and sneeze into your elbow, not your hand
- If using a tissue, dispose of the tissue in a plastic lined garbage container immediately

#### **Practice physical distancing when outside of the home**

- Stay at least 2m away from all people who are not members of your immediate household

#### **Sign up for your Vaccine Passport if you are vaccinated**

- for the short term, you can use your passport and foreign vaccination records to enter restaurants and other places where admission is restricted to those who are vaccinated
- However, this is not a long term solution. As well, getting the BC vaccine passport will mean you are eligible for any booster shots as they are given.
- We will post instructions on the Google Classroom. Please follow them and start the process right away as it can take weeks to get the QR code
- [More information can also be found here!](#)

**If you are not fully vaccinated, please register right away for your vaccinations**

- You will need to phone to get a temporary Personal Health Number from 1-833-838-2323. Translators are available.
- Once you have a temporary PHN, they can also arrange an appointment for you.
- [More information can be found here!](#)

**Get connected**

- After being in your room for 2-3/14 days, it may feel normal for you to be there. You and your host family will have to start to make new routines where you are integrated with the family and part of their daily lives. Quarantine/self-isolation is not 'normal' ... and is not the expectation after the 2-3/14 days are over!

**Complete the K to 12 Health Check App everyday**

- For further information regarding symptoms of COVID and when you should and should not go to school, go for a COVID test, see a doctor, etc contact 8-1-1 or [use this assessment tool](#).

**Stay connected**

- Keep communicating and reaching out to our staff as needed

**Be aware of and follow the current Public Health Orders and Recommendations – [Click Here](#)**

Current Community and School protocols will be reviewed with you on your first day of school both at the school and at the zoom meeting at 3:30 on Monday, February 7th. You are required to wear a mask while in school with a limited number of exceptions.

**If a Student or Family Member Develops Symptoms or is Diagnosed with COVID-19**

If anyone in a household is experiencing even mild symptoms including fever, chills, cough, shortness of breath, loss of sense of smell, headache, muscle ache, fatigue or loss of appetite they should inform the host family and our program AND

- Complete the self-assessment tool - <https://bc.thrive.health/covid19/en> or contact 8-1-1
- Follow the directions outlined on the self-assessment tool or by the nurses on 8-1-1 and contact public health authorities if, when and how recommended
- Follow the directions of the Public Health Authority

## Student and Natural Parent Pre-Departure Declaration

Please complete this portion of the form and email to [croesler@GoDelta.ca](mailto:croesler@GoDelta.ca) as soon as possible. Please also send a copy of the vaccination record if the intent is to arrive fully vaccinated against COVID 19.

Each of the undersigned fully understands these Protocols and agrees to all of its requirements. Students will be unable to attend school if Quarantine is not adhered to in full. Students will be dismissed from the program and will return to their home country. There will be no refund of tuition fees. The student and parent may also be subject to severe penalties from the Government of Canada. Students and their parents are responsible for any fines incurred due to breach of Quarantine Protocol. The undersigned fully understand that exemption from Quarantine for fully vaccinated students is at the discretion of Canada Border Services.
